

SPOT-ON FISHING

● **NEW METHOD**
Going hi-tech with fish forecasting to increase yield and boost income

● **WHO BENEFITS?**
More than 90,000 fishermen who are still using traditional methods to fish

>> **REPORT: P4**

“

With fish forecasting, the location of the fish can be determined before the fishermen go out to sea.”

*Darus Ahmad
Director of Malaysia Centre for
Remote Sensing (Mocres)*
